SUMMARY

Infrastructure-focused Data Engineer with a B.Sc in Computer Science and advanced training in Cloud Computing and Big Data Systems. Proficient in Apache Spark, Python, SQL, and ETL pipeline architecture, with experience in database optimization, data warehousing, and automated workflow scheduling. Developed an Enterprise Log Analytics Pipeline to deliver actionable insights for system performance monitoring.

EDUCATION

2016 St. James' School

Indian Certificate of Secondary Education
460

2018 St. James' School

Indian School Certificate
325

2018 Webel Informatics Limited

Certificate in Database Administration
A

2018–2021 Asutosh College

B.Sc Computer Science
CGPA = 7.34

2026 Advanced Technology Labs

Cloud Infrastructure & Big Data Engineering
9.1/10

SKILLS

- Apache Spark
- Apache Kafka
- HiveQL
- Amazon Web Services (AWS)
- Google Cloud Platform
- Python Scripting
- PySpark Framework
- Airflow DAGs
- Docker Containers
- PostgreSQL Integration
- Snowflake Data Warehouse
- Hadoop Ecosystem
- Data Pipeline ETL
- Linux Bash Scripting
- Git Version Control
- Jenkins CI/CD

PROJECTS

- **Enterprise Log Analytics Pipeline**

This project uses distributed streaming data systems to process real-time server log data, helping DevOps teams identify performance bottlenecks instantly and minimize infrastructure downtime.
