SUMMARY

Automation-oriented Cloud DevOps Engineer with a B.Tech in Electronics & Communication Engineering and specialized training in Infrastructure as Code and Site Reliability. Proficient in Kubernetes, Terraform, Docker, and AWS architecture, with experience in deploying scalable infrastructure, managing CI/CD pipelines, and establishing container orchestration layers. Developed a Zero-Downtime Microservices Deployment Framework to deliver actionable insights for platform reliability.

EDUCATION

2016 Don Bosco School, Park Circus

Indian Certificate of Secondary Education
468

2018 Don Bosco School, Park Circus

Indian School Certificate
332

2018 Linux Learning Centre

Certificate in Cloud Infrastructure Operations
Grade A

2018–2022 Techno Main Salt Lake

B.Tech Electronics & Communication Engineering
CGPA = 7.42

2026 Cloud Architecture Institute

Advanced DevOps Engine & SRE Architectures
9.3/10

SKILLS

- Kubernetes Orchestration
- Terraform IaC
- Docker Containers
- Jenkins Pipelines
- GitLab CI/CD Systems
- Amazon Web Services (AWS)
- Microsoft Azure Cloud
- Ansible Configuration Management
- Prometheus Monitoring
- Grafana Visualizations
- Linux Kernel Internals
- Bash Infrastructure Scripting
- Python System Automation
- Git Workflow GitOps
- Nginx Load Balancing
- HashiCorp Vault Security

PROJECTS

- **Zero-Downtime Microservices Deployment Framework**

This project uses canary and blue-green deployment strategies managed via automated GitOps tools, helping enterprise software platforms rollout system updates securely without interrupting active user traffic.
