## SUMMARY

---

Product-oriented Full-Stack Developer with a B.Sc in Computer Science and specialized training in Next.js, Node.js, and Modern Cloud Architectures. Proficient in React, TypeScript, Express, and database engineering, with experience in building responsive user interfaces, scaling secure backend RESTful APIs, and implementing real-time web solutions. Developed a Collaborative Project Management Dashboard to deliver actionable insights for team productivity tracking.

## EDUCATION

---

**2017      Bethune Collegiate School**

West Bengal Board Of Secondary Education  
458

**2019      Bethune Collegiate School**

West Bengal Council Of Higher Secondary Education  
318

**2019      George Telegraph Training Institute**

Diploma in Advanced Web Technologies  
Grade A+

**2019–2022    Scottish Church College**

B.Sc Computer Science  
CGPA = 7.12

**2026      FullStack Engineering Institute**

Enterprise Web Applications & System Architecture  
9.1/10

## SKILLS

---

- JavaScript (ES6+)
- TypeScript Core
- React.js Engine
- Next.js Framework
- Node.js Runtime
- Express.js Framework
- MongoDB Database
- PostgreSQL Storage
- GraphQL APIs
- REST API Architecture
- Redux State Toolkit
- Tailwind CSS Styling
- Git Version Architecture
- Docker Deployment
- Firebase Infrastructure
- Amazon Web Services (S3)

## PROJECTS

---

• **Collaborative Project Management Dashboard**

This project uses WebSocket connections and complex relational data patterns to synchronise tasks across active user bases in real time, helping distributed enterprise engineering teams eliminate communication silos and boost sprint completion metrics.
